

User Guide

1. Introduction

This platform allows users to share their thoughts and perspectives on a given issue through a series of guided questions. The interaction is designed to be simple, intuitive, and step-by-step, making it easy to complete without prior experience.

Users will be presented with an issue and asked to respond to several questions. All responses are open-ended and based on the user's own understanding and opinions.

2. How It Works

The process is straightforward and consists of three main steps:

- **View the Issue**

Users first see a description of an issue. They can choose their initial stance by selecting one of the available options.

- **Answer Questions**

Users are guided through a series of questions, answering them one at a time. They can type their responses and proceed by pressing "Next" or the Enter key. If unsure, users may choose to skip remaining questions.

- **Completion and Rewards**

After completing the questions, users may receive a reward, such as a discount coupon, sent to their email.

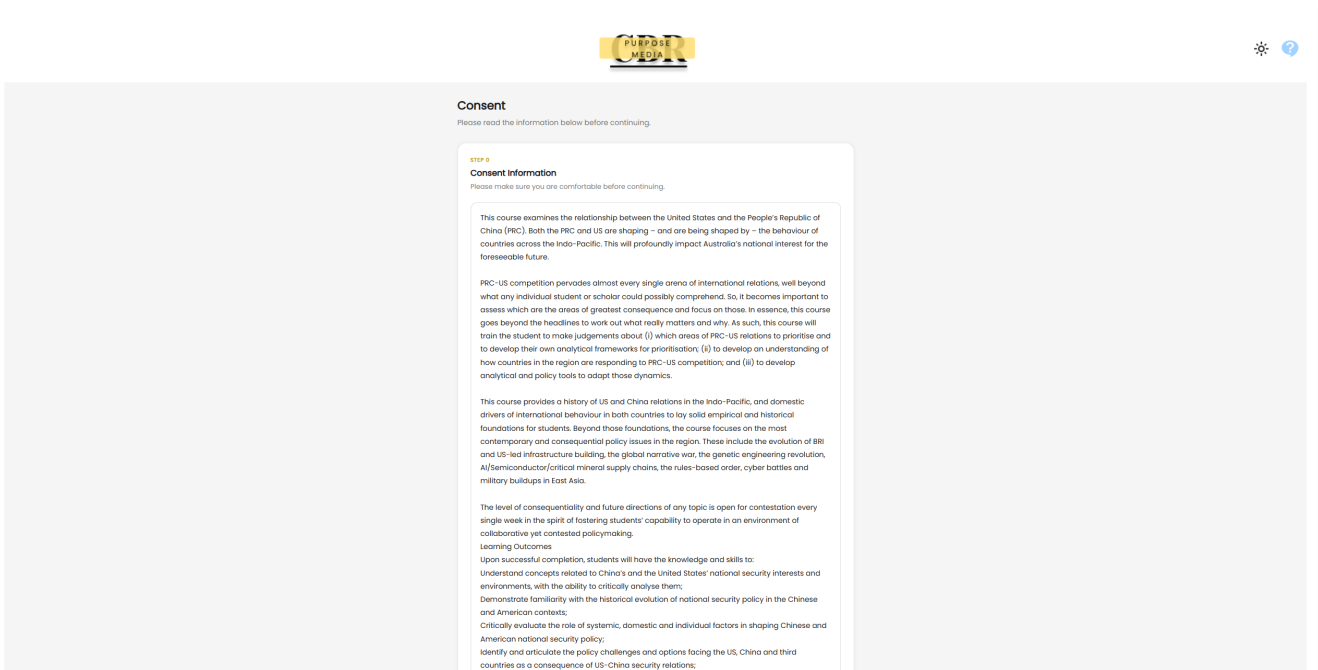

Users also have the option to register for an account. Registered users can save their profile information (e.g., selected tags), so they do not need to re-enter it in future interactions.

3. Get Start

Get to the main page through shared link and click the "Get Started" button.

If you agree with the consent, please confirm and continue.

Enter name and select tags best suits you. You can also create new tags if you want.

Lived Experience Profile Builder

Create a quick profile based on behaviours and lived experiences

STEP 1
Basic Info
Let's start with your name

4. Answering the Issue

First choose your attitude to the issue.

Issue test consent-long

What is your view on this issue?
Select one option to continue to the follow-up questions.

AgreeDisagreeI don't know

Continue →

Then answer 5 times, deeper and deeper, about why you choose it. Or select "I don't know" to end the procedure.

Issue

Do you agree that Rise Above plays a role in supporting people through the cancer journey?

What is your view on this issue?

Select one option to continue to the follow-up questions.

✓ Agree

Disagree

I don't know

Question 1 of 5

✓ Agree

Why does this issue matter to you?

Write in your own words. No names or identifiers.

test01

← Previous

Next question →

Then goto how part, asking about the solutions. Similarly, 5 times and you can end earlier if you really don't know how.

The screenshot shows a survey interface for 'PURPOSE MEDIA'. At the top, it says 'Question 1 of 5'. The question is 'How could this be improved?'. Below the question is a text input field with a placeholder 'Write in your own words. No names or identifiers.' and the text 'test02' entered. At the bottom of the input field are two buttons: 'Previous' and 'Next question -->'. The 'Next question -->' button is highlighted in yellow.

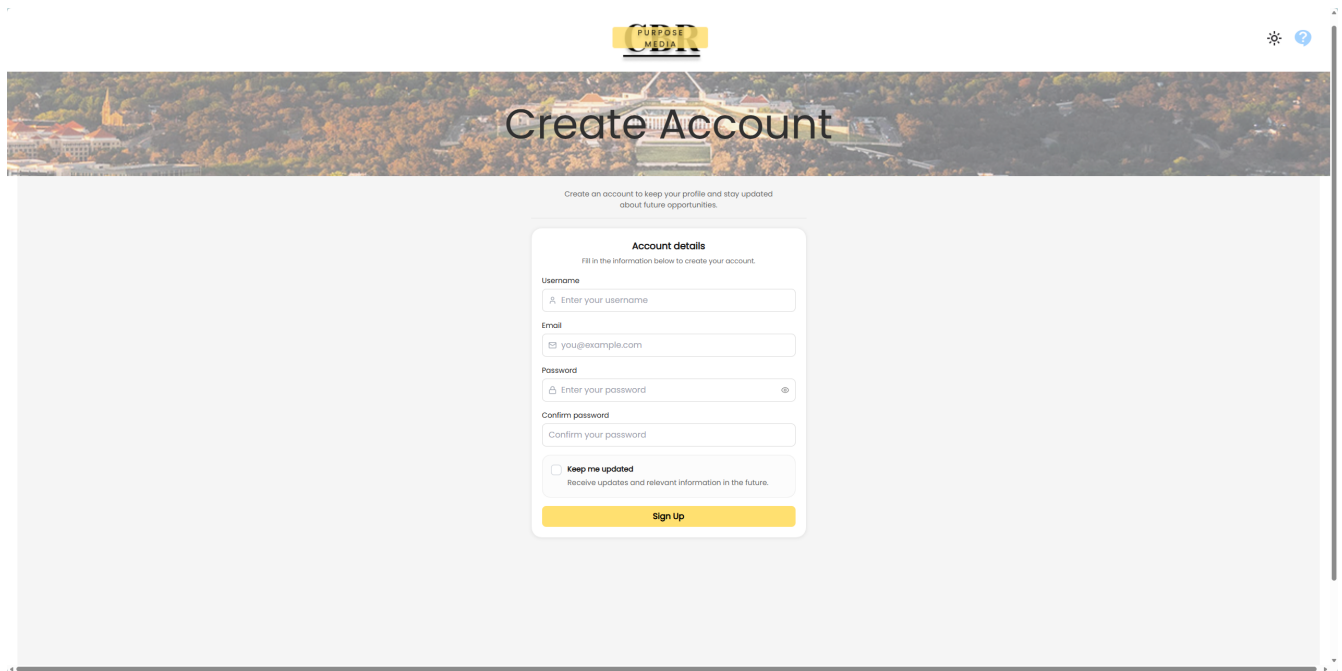

5. Submitting Answers and Getting Coupons

After you finish all the questions, we'll be really grateful to you and would like to send you a ten-dollar voucher through your email address.

The screenshot shows a 'Thank You' page for 'PURPOSE MEDIA'. The background is a scenic view of a university campus. The text 'Thank You' is prominently displayed. Below it, a message says: 'Thank you for sharing your lived experience. You can leave your email below for updates, a voucher, or both.' There is a form titled 'Stay in the loop' with the instruction 'Choose whether you would like a shopping voucher, future updates, or both.' The form includes an 'Email address' field with 'you@example.com' entered. Below the email field are two checkboxes: 'Send me a \$10 shopping voucher' and 'Keep me updated with the latest information'. At the bottom of the form is a yellow button labeled 'Save preferences'. Below the form is a 'Join Us' button.

6. Signup

You can click the "Join Us" button after finish the questionnaire or before start to signup your own account. Name and tags will be recorded so you wouldn't need to select them again when you deal with another questionnaire.

3. Conclusion

The platform enables users to easily share their perspectives through a simple and structured process, while ensuring that responses remain authentic and unbiased.
